SUMMARY

Full-stack software engineer with over 3 years of professional software development experience, specializing in building scalable web applications and backend systems. Proven ability to deliver solutions across React, Node.js, Ruby on Rails, and Shopify. Strong consulting background, with experience working directly with clients to shape features, reduce operational costs, and enhance performance.

SKILLS

- **Languages:** Ruby, JavaScript, TypeScript, HTML, CSS, CoffeeScript, SQL
- **Frameworks:** Ruby on Rails, React, Node.js
- **Databases:** PostgreSQL, MongoDB, SQL
- **Tools:** Git, GitHub, Docker, Jenkins, Semaphore, Shopify (Liquid), Tailwind, Turbo
- **Other:** Microsoft Azure Fundamentals (Certified), Microsoft Excel Expert

WORK EXPERIENCE

Ellym **Plano, TX**
Software Consultant *August 2022 - Present*

- Developed scalable full-stack features for client applications using Ruby on Rails, Node.js, and React.
- Delivered multiple production-grade tools including media upload systems, API rate limiters, and cost-control workflows.
- Worked closely with QA and design teams to deliver features, prioritize tasks, and maintain code quality in a dynamic development environment.
- Created reusable components, enhanced frontend UX, and optimized database queries for performance.

The Igniter Company **Richardson, TX**
Junior Software Developer *January 2022 - July 2022*

- Designed and developed web applications using Ruby on Rails.
- Delivered full-page redesigns and implemented new UI elements using HTML, SCSS, JavaScript, and CoffeeScript.
- Resolved bugs and shipped updates to client-facing tools across several live products.

East Central University **Ada, OK**
Resident Assistant *August 2018 - December 2021*

- Planned and coordinated multiple events to enhance and develop student development and involvement in on-campus activities and residence hall spirit.
- Supervised and mentored a 15-30 student residence hall every semester and cultivated relationships to build a strong sense of community and belongingness.
- Managed administrative duties: budgeting, maintenance requests, incident reports, and room transfers
- Developed and conducted programs on diversity, leadership, personal development, relationships, and academic performance.
- Earned best returning resident assistant award from a group of 12 resident assistants.

Amazon **Hyderabad, India**
Customer Service Representative *April 2017 - July 2017*

- Handled calls daily, with duties including signing up new customers, retrieving customer data, presenting relevant product information, and canceling services
- Provided persistent commitment to customer service, as well as the capacity to develop productive connections, and earn client loyalty
- Placed and canceled orders from customers
- Maintained a cheerful, compassionate, and professional demeanor toward consumers.

PROJECTS

Payment Card Industry Compliance (Authorize.net Integration)

- Implemented Authorize.net's Accept Js library to be compliant with PCI's standard of card data transmission and storage.
- Used API calls to Authorize card tokenization and use returned data for processing, charging and storing credit cards and creation of payment profiles.
- Customized the encrypted token to our pre-existing payment system to handle and display real-time token errors received from Authorize.net.
- Implement Accept Js with different front-end infrastructures which included React with Typescript and HTML with embedded Ruby and Coffeescript.

4K Media Upload & Filtering Platform

- Developed backend support for 4K image and video uploads with filtering tools for a stock content marketplace
- Optimized file processing and built intuitive frontend filters using Rails views and custom JavaScript

Upload Limit & Cost Control System

- Created APIs to enforce upload limits per user to reduce image processing costs
- Built a responsive UI using HTML, CSS, and JavaScript to display usage and quota

Failed Renewal Follow-Up System

- Built backend workflows to flag failed renewals and generate customer service activities
- Enabled follow-up outreach and improved retention operations

Full-Page Redesigns

- Led redesign of key client product pages, improving UX and frontend consistency
- Implemented responsive layouts using HTML, SCSS, and Rails templating

Shopify Theme Development

- Developed and customized Shopify themes for e-commerce clients
- Built reusable components and optimized Liquid templates for performance and UX
